

ESSB RECIT Newsletter

May, 2013 - B

LEARN Journal

A themed journal published twice yearly:

<http://learninglandscapes.ca>

Global Citizenship:

Skype for the Classroom

<https://education.skype.com>

Social Science:

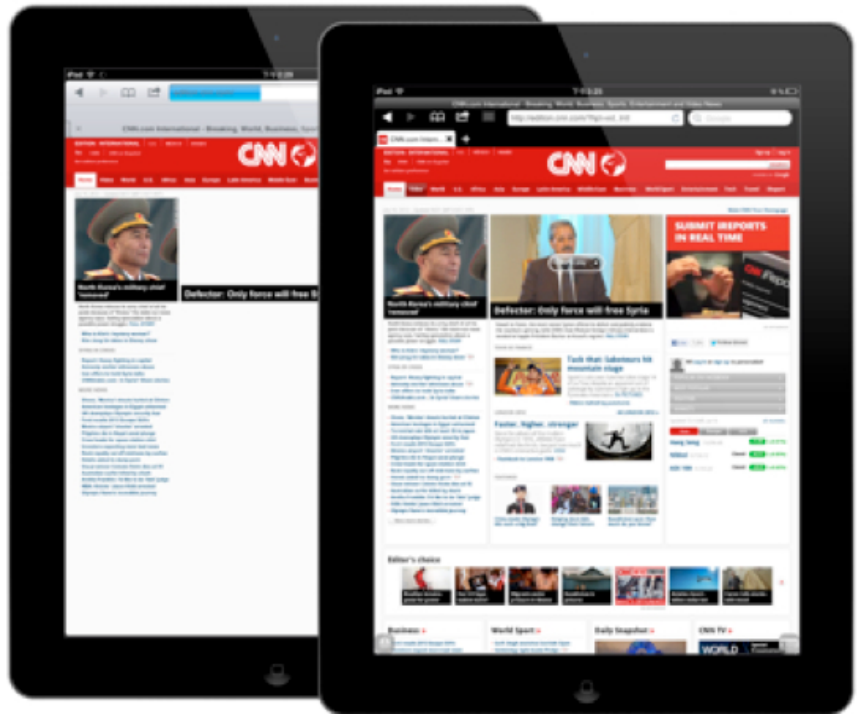

Timeline Creation Tool

<http://www.timetoast.com>

Math / Science:

Scale of the Universe Toy

<http://htwins.net/scale2>

Flash on the iPad

There are browsers such as Puffin that supports flash on iPad. Puffin provides a free trial version to test, which works fine with the LTK, Bookflix and Reflex. You can buy it later after you try it out for \$2.99. Some other browsers that support flash include Skyfire, Photon, and iSwifter; however, I have not found a free one so far.

Thanks to Nancy Langlois and Lili Sun for providing this information!

Comics

A great way to engage kids in Cross Curricular creating writing projects is to create comics. There are a number of free comic making software out there, including:

<http://www.pixton.com/ca> or <http://chogger.com>
